Reporting Mine Accidents

Mine accidents (see definition below) require notification to the State Mine Inspector at the Bureau of Mine Safety in Socorro, New Mexico within 30 minutes. The toll free telephone number for reporting accidents at all times is **866-761-6039**. If you cannot reach this number please call the following personnel in the numerical order as listed until you are able to make contact.

Terence Foreback – State Mine Inspector (505) 553-1532

Chris Hefner – Associate State Mine Inspector (505) 553-1535

Larry Sanchez – NM Bureau of Mine Safety (505) 553-1534

Jacoby Boles – NM Bureau of Mine Safety (575) 835-5460

Mine means: (1) An area of land from which minerals are extracted in nonliquid form or, if in liquid form, are extracted with workers underground (2) private ways and roads appurtenant to such area, and (3) lands, excavations, underground passageways, shafts, slopes, tunnels and workings, structures, facilities, equipment, machines, tools, or other property including impoundments, retention dams, and tailings ponds, on the surface or underground, used in, or to be used in, or resulting from, the work of extracting such minerals from their natural deposits in nonliquid form, or if in liquid form, with workers underground, or used in, or to be used in, the milling of such minerals, or the work of preparing coal or other minerals, and includes custom coal preparation facilities as well as sand and gravel operations.

Accident means

- (1) A death of an individual at a mine;
- (2) An injury to an individual at a mine which has a reasonable potential to cause death;
- (3) An entrapment of an individual for more than thirty minutes;
- (4) An unplanned inundation of a mine by a liquid or gas;
- (5) An unplanned ignition or explosion of gas or dust;
- (6) An unplanned mine fire not extinguished within 30 minutes of discovery;

- (7) An unplanned ignition or explosion of a blasting agent or an explosive;
- (8) An unplanned roof fall at or above the anchorage zone in active workings where roof bolts are in use; or, an unplanned roof or rib fall in active workings that impairs ventilation or impedes passage;
- (9) A coal or rock outburst that causes withdrawal of miners or which disrupts regular mining activity for more than one hour;
- (10) An unstable condition at an impoundment, refuse pile, or culm bank which requires emergency action in order to prevent failure, or which causes individuals to evacuate an area; or, failure of an impoundment, refuse pile, or culm bank;
- (11) Damage to hoisting equipment in a shaft or slope which endangers an individual or which interferes with use of the equipment for more than thirty minutes; and
- (12) An event at a mine which causes death or bodily injury to an individual not at the mine at the time the event occurs.
