

YOUR PATH TO SUCCESS

Our conference theme, **Your Path to Success**, recognizes that establishing and maintaining excellent health and safety practices and procedures at our mining operations is the only path to success. Statistics have consistently shown that mining operations that have fewer citations and accidents are also the most productive and the most profitable.

Our 5th annual New Mexico Mine Health and Safety Conference can be the GPS that guides you on **Your Path to Success** and contributes to your health and safety success, productivity and profitability!

The conference is sponsored by the New Mexico mining industry, Mine Safety and Health Administration, and the NM BMS.

Make your reservations early to attend the 2012 New Mexico Mine Health and Safety 5th Annual Conference being held in Socorro, New Mexico, at the Macey Conference Center.

Call **575-835-5460** or check out the New Mexico Bureau of Mine Safety website at www.nmminesafety.com for regularly updated information on this excellent New Mexico Mine Health and Safety Annual Conference.

If you know of anyone that may be interested in becoming a sponsor and/or a vendor at this very exciting New Mexico Mine Health and Safety Conference, please contact at: bmi@admin.nmt.edu or **575-835-5460**.

Our conference is for all Partners in Safety, including management, labor, regulators, educators, and supervisors.

5th Annual New Mexico Mine Health and Safety Conference April 30—May 2, 2012

**Macey Conference Center
1-7 Olive Lane
Socorro, NM 87801**

2011 NM MINE HEALTH & SAFETY CONFERENCE

The 2011 NM Mine Health and Safety Conference was loaded with power-packed presentations.

Secretary Michael Duvall, NM Dept. of Homeland Security and Emergency Management was a guest speaker.

Dr. Ted Boyce, Center for Behavioral Safety, was a keynote speaker.

Jared Fogle, "The Subway Guy", was our lunch speaker.

Joe Main, Assistant Secretary of Labor, MSHA, was a keynote speaker Tuesday morning.

All of the training courses and keynote speeches helped participants gain knowledge of the current hot topics relating to the mining industry.

Along with the training courses, there were break-out sessions from Camille Holcomb, MSHA South Central District, Ben Hart, Florida Mine Safety Training Program, fire-fighting training provided by Chevron Mining, Inc., and many others.

THOUGHTS ON THE 2011 NM MINE HEALTH & SAFETY CONFERENCE FROM AN ATTENDEE

Bill Holder, Director of Health, Safety and Security – Mosaic Potash, was a guest speaker at the 2011 New Mexico Mine Health and Safety Conference.

"My first visit was a great one! In its relatively infancy stage, the New Mexico Mine Health and Safety Conference has developed itself very quickly as a credible and effective

forum for safety professionals and operations people to come together with a common goal: To share and to learn about best practices and leading edge processes in pursuit of improving safety performance in the mining industry. This conference has identified that the key to this pursuit is people and their families. And in my mind, it just doesn't get any better than that. I am very proud of the state of New Mexico and all the people in her mining industry. Thank you so much for allowing me to be a part of this superb event."

The 2011 New Mexico Health and Safety Conference offered a variety of health testing. Testing included ALT/AST (measures Liver enzymes), Cholesterol/lipids, Glycosolated Hemoglobin (A1C), Body Fat Analysis (measures total weight, BMI, BMR, fat %, and total body water) and a complete set of vital signs. This testing, if done in a doctor setting, could cost in excess of \$300.00 and was offered at no cost to all conference participants. Literature and brochures were given out explaining and answering questions regarding testing. The Wellness Fair was a big success and I know the nurses and volunteers were excited to be there offering information to improve health and overall well-being. The opportunity for Intrepid Potash, Mosaic Potash, WIPP and other corporations to interact and share knowledge was exciting and informative. We look forward to continuing to offer testing and information to promote a healthy lifestyle at the 2012 NM Mine Health and Safety Conference. Thank you to all who participated and we hope this year will be even better! — Sharay Sartin, Mosaic Potash

COMING TO THE 2012 NEW MEXICO MINE HEALTH & SAFETY CONFERENCE
